Annual Index to ELECTRICAL ENGINEERING for Volume 81, 1962

This section contains complete multientry indexes covering the contents of *Electrical Engineering* for the calendar year 1962. It includes all special articles and authors, all news items, and all items published on AIEE technical program papers. A technical program paper will be listed as (62-000).

The contents are arranged according to **Subject** and **Author Index** listing articles and authors; **News Index** listing all items that appears in AIEE on the Move and Progress in Technology sections, with a **Biographical Index** of news items on AIEE members.

(AIEE/IPCEA Task Group Report) Power Cable Ampacities. 799-800
(AIEE/IRE Consolidation) An Appeal to Every Member from AIEE President Warren H. Chase . . . 337
(Abstracting) We Need Your Help 623
Accelerators, Developments in Ultra-High Energy. Blewett 130-4
Active Devices in Precision Bridges, The Use of. Hall, Fulks. (CP62-290) 367-72
Adjustable-Speed Drives, Static Power Supplies for. Jones, Olds 178-86
Advances in Feeder Protection Through Electronics. Jones. (DP62-518) 792-4
Aerospace Use, Dynamic Converters for. Duane. (CP62-1157) 776-83
Air Blast Circuit Breaker, Field Tests Made on 2-Cycle. Shores, Beehler, Beatty, Nael. (62-243) 445-50
Airline Reservations, Large-Scale Systems Engineering for. Levine, Buegler 604-08
Ampacities, Power Cable. (AIEE/IPCEA Task Group Report) 799-800
Angle Encoder, A Shaft Multiplication Precision. Brouillette. (CP61-1087) 119-21
Application Engineering to Reduce Costs and Improve Reliability, Proper Motor. Paulus, Green 519-22
Application of an Integrated 30-Kw Electrothermal Engine System. Martinek. (CP62-1163) 869-73
Applications of Superconductivity to the Generation and Distribution of Electric Power. McFee . . . 122-9
Applications of Touch-Tone Calling. Benson, Crutchfield, Hopkins. (CP62-224) 262-7
Approach to Disaster Communication and Control Systems, A New. Kamen (CP62-1120) 535-41
Arctic, Radio Wave and Alternate Communications in the. Gerson. (CP62-48) 364-6
Automation, Distribution Photometry and. Franklin, Garratt 512-18
Automation of a Large Power Station, Systems Engineering for. Chadwick. 598-603

B

Background and Future of Energy Conversion. Furnas 845-9
Banks, Elements of Energy Storage Capacitor. Kemp 681-5
(Basic Sciences) Tunnel Diode Static Inverter. Marzolf. (CP61-1052) 112-14
Bridges, The Use of Active Devices in Precision. Hall, Fulks. (CP62-290) 367-72
Broadcasting Facilities, A Survey of College Radio Carrier-Current. Chertok 115-18
(Brookhaven National Lab.) Developments in Ultra-High Energy Accelerators. Blewett 130-4
Brushes, Current Density in Carbon. May 208-09

C

Cable Ampacities, Power, (AIEE/IPCEA Task Group Report) 799-800
Capacitor Banks, Elements of Energy Storage. Kemp 681-5
Carbon Brushes, Current Density in. May 208-09
Cardiac Resuscitation and "Last Chance" Therapy. Dotter 508-11
Carrier-Current Broadcasting Facilities, A Survey of College Radio. Chertok 115-18
Carrier Euipment via Microwave, Portable Use of Short-Haul. Kiener, Bloor. (CP62-267) 277-80
Celebrating, An Event Worth. Walker 27-31
Chemical Plant Complex, Systems Engineering A Large. Williams 590-7
Circuit Breaker, Field Tests Made on 2-Cycle Air-Blast. Shores, Beehler, Beatty, Nael. (62-243) 445-50
(Codes of Ethics) Ethics and the Technical Societies. Nicholson, Gammell 260-1
Coding Scheme for Digital Telemetering and Control, A Compatible. Epstein. (CP62-1174) . . . 795-8
College Radio Carrier-Current Broadcasting Facilities, A Survey of. Chertok 115-18
Colleges by Industry, Support of Endowed. Malti. (CP61-734) 7-12
Columbia River, International Development of the. McIntyre. (CP62-1179) 529-34
(Committees) Engineering Progress—1962. . . . . 916-18, 950-64
Communication and Control Systems, A New Approach to Disaster. Kamen. (CP62-1120) . . 535-41
Communications, Compatibility in. Singer 94-9
Communications in the Arctic, Radio Wave and Alternate. Gerson. (CP62-48) 364-6
(Communications) Technology—1962-1966. Kraus . 2-6
Commutation, D-C Machine with Solid-State. Wilson, Tricker. (CP62-1372) 879-84
Compatibility in Communications. Singer 94-9
Compatible Coding Scheme for Digital Telemetering and Control, A. Epstein. (CP62-1174) . . . 795-8
Complex, Systems Engineering a Large Chemical Plant. Williams 590-7
Computers and World Leadership. Bibby 169-73
(Computing Devices) A Shaft Multiplication Precision Angle Encoder. (CP61-1087) 119-21
Concordia, Charles—1961 Lamme Medalist 712-15
Control, A Compatible Coding Scheme for Digital Telemetering and. Epstein. (CP62-1174) . . . 795-8
Control Systems, A New Approach to Disaster Communication and. Kamen. (CP62-1120) 535-41
Conversion Concepts for Space Needs, Solid-State. Wise. (CP62-1158) 864-8
Converters for Aerospace Use, Dynamic. Duane. (CP62-1157) 776-83
Costs and Improve Reliability, Proper Motor Application Engineering Can Reduce. Paulus, Green. 519-22
Current Density in Carbon Brushes. May 208-09
Current Induction Motors, Saturistors and Low Starting. Alger, Angst, Schweder. (CP62-1389) . . . 965-9

D

(Data Processing) Large-Scale Systems Engineering for Airline Reservations. Levine, Buegler . . . 604-08
D-C Machine with Solid-State Commutation. Wilson, Tricker. (CP62-1372) 879-84
(Dedication Address) An Event Worth Celebrating. Walker 27-31
Demonstrations, Teaching and. Moore 677-80
Density in Carbon Brushes, Current. May 208-09
Design Concepts for an Exploding Bridge—Wire Electronic Ignition System. Knudson, Forbess. (CP62-1139) 532-8
Development Leading to High-Power Vacuum Interrupters, Research and. Cobine 13-21
Development of the Columbia River, International. McIntyre. (CP62-1179) 529-34
Developments, Engineering—1962. 919-49
Developments in Ultra-High Energy Accelerators. Blewett 130-4
Devices in Precision Bridge, The Use of Active. Hall, Fulks. (CP62-290) 367-72
Dichotomy, Theory and Experiment—The False. LePage. (CP62--1272) 772-5
Digital Readout, High-Speed Stroboscopic Tachometer with. Weed. (62-966) 441-4
Digital Telemetering and Control, A Compatible Coding Scheme for. Epstein. (CP62-1174) . . . 795-8
Diode Static Inverter, Tunnel. Marzolf. (CP61-1052) 112-14
Disaster Communication and Control Systems, A New Approach to. Kamen. (CP62-1120) 535-41
Distance Transmission, Era-Long. DuBois, Fairman, Martin, Ward, Murphy. (61-793) 105-11
Distribution of Electric Power, Applications of Superconductivity to the Generation and. McFee . . 122-9
Distribution Photometry and Automation. Franklin, Garratt 512-18
Drives, Static Power Supplies for Adjustable-Speed. Jones, Olds 178-86
Dynamic Converters for Aerospace Use. Duane. (CP62-1157) 776-83

E

Economic Aspects of System Expansion with Nuclear Units. Baldwin, Houser, Casazza, Salmon. (62-961) 706-11
Edison Medalist for 1961—William B. Kouwenhoven 202-07
(Education) A Survey of College Radio Carrier-Current Broadcasting Facilities. Chertok 115-18
(Education) Support of Endowed Colleges by Industry. Malti. (CP61-734) 7-12
(Education) Teaching and Demonstrations. Moore 677-80
(Education) Theory and Experiment—the False Dichotomy. LePage. (CP62-1272) 772-5
Electrets in Electrostatic Generators for Space, The Use of. Matthhew. (CP62-1145) 850-4
Electric Energy in the Four Decades Ahead. Sporn 257-9
Electric Power, Applications of Superconductivity to the Generation and Distribution of. McFee . . 122-9
Electric Power, RESEARCH—the Path to Progress in. Meese 784-7
Electric Service, Establishment of Rates for. John. (CP62-174) 268-72
Electric Transmission for High-Speed High-Powered Tracked Vehicles. Edwards 686-91
(Electric Utility) System Optimization Techniques. Kirchmayer 618-22
Electrical System of the N. S. Savannah. Gregory. (62-41) 347-53
Electronic Ignition System, Design Concepts for an Exploding Bridge—Wire. Knudson, Forbess. (CP62-1139) 523-8
Electronics, Advances in Feeder Protection Through. Jones. (DP62-518) 792-4
(Electronics) Infrared Meteorological Instrumentation for Space Vehicles. Wormser 285-9
Electrostatic Generators for Space, The Use of Electrets in. Matthew. (CP62-1145) 850-4
Electrothermal Engine System, Application of an Integrated 30-Kw. Martinek. (CP62-1163) . . . 869-73
Elements of Energy Storage Capacitor Banks. Kemp 681-5
Elevator Control System, A High-Performance. Oplinger, Bobula, Lund, Ostrander. (CP62-70) . . . 187-93
Encoder, A Shaft Multiplication Precision Angle. Brouillette. (CP61-1087) 119-21
Endowed Colleges by Industry, Support of. Malti. (CP61-734) 7-12
